Worst app ever, had to root my phone and install an app called UTS. Now it can't even play tv. Why did they put this junk on their app store, I have never even heard of this tv app Sucks I hope they fix it right away. It doesn't show any info in the app bar. it has a close button it wont go away unless you close the tab. If you want to watch something it shows up in the bar but when I click the + button it goes to the first channel in the list. Then the + button goes back to the right corner. I try to change the channel it does not do anything. The only thing it does is to keep playing the first channel and when I change it its 09e8f5149f
